Séminaire Stefano Piana et Paolo Alborno

Mercredi 4 mars 2015 à 10h30

Campus Jussieu, 4 place Jussieu, Paris

Salle de réunion 304, ISIR

Talk Title: EyesWeb XMI: the multimodal and multimedia research platform

Speakers: Stefano Piana, Paolo Alborno – (PHD students at Casa Paganini Research Centre, Università degli Studi di Genova, Italy)

Scheduled time: Wednesday 4th March at 10.30 am

Duration: approx. 45 min

Abstract: The fundamentals of the EyesWeb XMI platform: a software supporting research on multimodal interfaces and interactive systems fully developed at Casa Paganin Infomus Research Centre. The platform is widely employed for designing and developing real-time multimedia, social, music, dance and artistic applications. The talk will be focused on the following topics:

- Basic concepts of the EyesWeb visual programming paradigm and introduction to the Graphic Development Environment (GDE)
- The EyesWeb kernel
- Integration and external communication
- EyesWeb Mobile Designer
- Demo session
